American Journal of Physiology:
Lung Cellular and Molecular Physiology

No. 1. JANUARY 1994

EDITORIAL

Building on a solid foundation
D. E. Rannels L1

Interleukin-1-induced lung neutrophil accumulation and oxygen metabolite-mediated lung leak in rats
J. A. Leff, J. W. Baer, M. E. Bodman, J. M. Kirkman, P. F. Shanley, L. M. Patton, C. J. Beehler, J. M. McCord, and J. E. Repine L2

Changes in cytosolic cGMP and calcium in airway smooth muscle relaxed by 3-morpholinosydnonimine
K. A. Jones, R. R. Lorenz, D. O. Warner, Z. S. Katušić, and G. C. Sieck L9

Growth factors alter neonatal type II alveolar epithelial cell proliferation
R. M. Ryan, M. M. Mineo-Kuhn, C. M. Kramer, and J. N. Finkelstein L17

Neonatal capsaicin treatment decreases airway and pulmonary tissue responsiveness to methacholine
R. S. Sakae, A. S. Leme, M. Dolhnikoff, P. M. Pereira, M. Do Patrocínio, T. N. Warth, W. A. Zin, P. H. N. Saldiva, and M. A. Martins L23

Upregulation of sodium conductive pathways in alveolar type II cells in sublethal hyperoxia
J. F. Haskell, G. Yue, D. J. Benos, and S. Matalon L30

Protection against oxygen toxicity by tracheal insufflation of endotoxin: role of Mn SOD and alveolar macrophages
G. Tang, J. T. Berg, J. E. White, P. D. Lumb, C. Y. Lee, and M.-F. Tsan L38

Serotonin produces both hyperplasia and hypertrophy of bovine pulmonary artery smooth muscle cells in culture
S.-L. Lee, W. W. Wang, J. J. Lanzillo, and B. L. Fanburg L46

Regulation of serotonin-induced DNA synthesis of bovine pulmonary artery smooth muscle cells
S.-L. Lee, W. W. Wang, J. J. Lanzillo, and B. L. Fanburg L53

Endothelial gaps and permeability of venules in rat tracheas exposed to inflammatory stimuli
D. M. McDonald L61

Contrasting effects of alveolar macrophages and neutrophils on asbestos-induced pulmonary epithelial cell injury
D. W. Kamp, M. M. Dunn, J. S. Sbalchiero, A. M. Knap, and S. A. Weitzman L84

Effect of cigarette smoke and its condensates on alveolar epithelial cell injury in vitro
S. Lannan, K. Donaldson, D. Brown, and W. M. MacNee L92

CONFERENCE REPORT

Biology of the Clara cell
G. D. Massaro, G. Singh, R. Mason, C. G. Plopper, A. M. Malkinson, and D. B. Gail L101

LETTERS TO THE EDITOR

Comments on "Mucins: structure, function, and role in pulmonary disease"
K. R. Bhaskar and L. M. Reid; M. C. Rose L107

No. 2. FEBRUARY 1994

ET_A and ET_B receptors on single smooth muscle cells cooperate in mediating guinea pig tracheal contraction
T. Inui, A. F. James, Y. Fujitani, M. Takimoto, T. Okada, T. Yamamura, and Y. Urade L113

Induction of intracellular glutathione in alveolar type II pneumocytes following BCNU exposure
S. G. Jenkinson, R. A. Lawrence, C. A. Zamora, and S. M. Deneke L125

Antiproliferative effect of prostaglandin E_2 in cultured guinea pig tracheal smooth muscle cells
C. Florio, J. G. Martin, A. Styhler, and S. Heisler L131

Polarized distribution of Na^+-H^+ antiport activity in rat alveolar epithelial cells
R. L. Lubman and E. D. Crandall L138

Secretion of cytokines by rat alveolar epithelial cells: possible regulatory role for SP-A
H. Blau, S. Riklis, V. Kravtsov, and M. Kalina L148

Airway vasodilation by bradykinin is mediated via B_2 receptors and modulated by peptidase inhibitors
I. Yamawaki, P. Geppetti, C. Bertrand, B. Chan, and J. A. Nadel L156

Regulation of endothelial cell xanthine dehydrogenase/xanthine oxidase gene expression by oxygen tension
P. M. Hassoun, F. S. Yu, A. L. Shedd, J. J. Zulueta, V. J. Thannickal, J. J. Lanzillo, and B. L. Fanburg L163

Glutathione protects signal transduction in type II cells under oxidant stress
L. A. S. Brown L172

Serotonin increases DNA synthesis in rat proximal and distal pulmonary vascular smooth muscle cells in culture
B. R. Pitt, W. Weng, A. R. Steve, R. D. Blakely, I. Reynolds, and P. Davies L178

TGF-β1 modulates β-adrenergic receptor number and function in cultured human tracheal smooth muscle cells
M. Nogami, D. J. Romberger, S. I. Rennard, and M. L. Toews L187

Pseudomonas siderophore pyochelin enhances neutrophil-mediated endothelial cell injury
B. E. Britigan, G. T. Rasmussen, and C. D. Cox L192

Effects of halothane on the relationship between cytosolic calcium and force in airway smooth muscle
K. A. Jones, G. Y. Wong, R. R. Lorenz, D. O. Warner, and G. C. Sieck L199

BOOKSHELF L205

No. 3. MARCH 1994

Matrix metalloproteinase and elastase activities in LPS-induced acute lung injury in guinea pigs
M.-P. D'Ortho, P.-H. Jarreau, C. Delacourt, I. Macquin-Mavier, M. Levame, S. Pezet, A. Harf, and C. Lafuma L209

Maturation of catecholamine response and extraneuronal uptake in rabbit trachea
L. Varlotta and C. M. Schramm L217

Hypoxic vasoconstriction in rat pulmonary and mesenteric arteries
R. M. Leach, T. P. Robertson, C. H. C. Twort, and J. P. T. Ward L223

Role of potassium channels in hypoxic relaxation of porcine bronchi in vitro
K. S. Lindeman, L. B. Fernandes, T. L. Croxton, and C. A. Hirshman L232

TNF-α-induced transendothelial neutrophil migration is IL-8 dependent
S. J. Smart and T. B. Casale L238

Superoxide dismutase potentiates platelet-activating factor-induced injury in perfused lung
Y.-C. T. Huang, E. S. Nozik, and C. A. Piantadosi L246

Stimulation of lung surfactant secretion by endothelin-1 from rat alveolar type II cells
N. Sen, M. M. Grunstein, and A. Chander L255

Increased acetylcholine release in tracheas from allergen-exposed IgE-immune mice
G. L. Larsen, T. M. Fame, H. Renz, J. E. Loader, J. Graves, M. Hill, and E. W. Gelfand L263

Adenosine receptor-mediated bronchoconstriction and bronchial hyperresponsiveness in allergic rabbit model
S. Ali, S. J. Mustafa, and W. J. Metzger L271

Constitutive and stimulated MCP-1, GROα, β, and γ expression in human airway epithelium and bronchoalveolar macrophages
S. Becker, J. Quay, H. S. Koren, and J. S. Haskill L278

Asbestos exposure increases paracellular transport of fibrin degradation products across human airway epithelium
T. J. Gross, S. M. Cobb, and M. W. Peterson L287

Growth and differentiation of tracheal epithelial progenitor cells
J. Y. Liu, P. Nettesheim, and S. H. Randell L296

Brain natriuretic peptide: possible role in the modulation of hypoxic pulmonary hypertension
N. S. Hill, J. R. Klinger, R. R. Warburton, L. Pietras, and D. S. Wrenn L308

LETTERS TO THE EDITOR

Comments on figures
M. F. Tsan and J. E. White L316

No. 4. APRIL 1994

INVITED REVIEW

Transgenic models for the study of lung biology and disease
Y.-S. Ho L319

Characterization of mRNA transcripts and organization of human SP-A1 and SP-A2 genes
S. M. McCormick, V. Boggaram, and C. R. Mendelson L354

Human SP-A1 and SP-A2 genes are differentially regulated during development and by cAMP and glucocorticoids
S. M. McCormick and C. R. Mendelson L367

Activation of G proteins may inhibit or stimulate surfactant secretion in rat alveolar type II cells
M. S. Pian and L. G. Dobbs L375

Humic-like substances in cigarette smoke condensate and lung tissue of smokers
A. J. Ghio, J. Stonehuerner, and D. R. Quigley L382

Analysis of angiotensins I, II, and III in pulmonary vascular bed of the rat
B. D. Nossaman, C.-J. Feng, J. Wang, and P. J. Kadowitz L389

Antioxidant properties of guinea pig tracheal epithelial cells in vitro
L. A. Cohn, V. L. Kinnula, and K. B. Adler L397

Expression of cystic fibrosis transmembrane conductance regulator in a model epithelium
D. N. Sheppard, M. R. Carson, L. S. Ostedgaard, G. M. Denning, and M. J. Welsh L405

Neural and myogenic effects of leukotrienes C_4, D_4, and E_4 on canine bronchial smooth muscle
A. Abela and E. E. Daniel L414

Cytokine-cytokine synergy and protein kinase C in the regulation of lung fibroblast leukemia inhibitory factor
J. A. Elias, T. Zheng, N. L. Whiting, A. Marcovici, and T. K. Trow L426

SP-A, SP-B, and SP-C in surfactant subtypes around birth: reexamination of alveolar life cycle of surfactant
A. Baritussio, A. Alberti, D. Quaglino, A. Pettenazzo, D. Dalzoppo, L. Sartori, and I. Pasquali-Ronchetti L436

Identification of *Hox* genes in newborn lung and effects of gestational age and retinoic acid on their expression
C. W. Bogue, I. Gross, H. Vasavada, D. W. Dynia, C. M. Wilson, and H. C. Jacobs L448

Tetrahydrobiopterin synthesis and inducible nitric oxide production in pulmonary artery smooth muscle
D. K. Nakayama, D. A. Geller, M. Di Silvio, G. Bloomgarden, P. Davies, B. R. Pitt, K. Hatakeyama, H. Kagamiyama, R. L. Simmons, and T. R. Billiar L455

The β_2-adrenergic receptor agonist formoterol reduces microvascular leakage by inhibiting endothelial gap formation
P. Baluk and D. M. McDonald L461

Acute hypoxia causes membrane depolarization and calcium influx in fetal pulmonary artery smooth muscle cells
D. N. Cornfield, T. Stevens, I. F. McMurtry, S. H. Abman, and D. M. Rodman L469

Regulation of alveolar epithelial cell ICAM-1 expression by cell shape and cell-cell interactions
R. Paine III, P. Christensen, G. B. Toews, and R. H. Simon L476

No. 5. MAY 1994

Immune sensitization augments epithelium-dependent spontaneous tone in guinea pig trachealis
I. M. Ndukwu, J. Solway, K. Arbetter, K. Uzendoski, A. R. Leff, and R. W. Mitchell L485

Calu-3: a human airway epithelial cell line that shows cAMP-dependent Cl^- secretion
B.-Q. Shen, W. E. Finkbeiner, J. J. Wine, R. J. Mrsny, and J. H. Widdicombe L493

CFTR in Calu-3 human airway cells: channel properties and role in cAMP-activated Cl^- conductance
C. Haws, W. E. Finkbeiner, J. H. Widdicombe, and J. J. Wine L502

Neuropeptide Y and norepinephrine cooperatively inhibit human tracheal gland cell secretion
M. D. Merten and C. Figarella L513

Human SP-A: genotype and single-strand conformation polymorphism analysis
L. Krizkova, R. Sakthivel, S. A. Olowe, P. K. Rogan, and J. Floros L519

Contraction and depolarization induced by fetal bovine serum in airway smooth muscle
N. A. Abdullah, M. Hirata, K. Matsumoto, H. Aizawa, R. Inoue, S. Hamano, S. Ikeda, Z. Xie, N. Hara, and Y. Ito L528

Identification of PDE isozymes in human pulmonary artery and effect of selective PDE inhibitors
K. F. Rabe, H. Tenor, G. Dent, C. Schudt, M. Nakashima, and H. Magnussen L536

Effect of endocytosis inhibitors on alveolar clearance of albumin, immunoglobulin G, and SP-A in rabbits
R. H. Hastings, J. R. Wright, K. H. Albertine, R. Ciriales, and M. A. Matthay L544

Increased endothelin receptor gene expression in hypoxic rat lung
H. Li, T. S. Elton, Y. F. Chen, and S. Oparil L553

Recombinant GM-CSF reduces lung injury and mortality during neutropenic *Candida* sepsis
A. J. Lechner, K. E. Lamprech, L. H. Potthoff, T. L. Tredway, and G. M. Matuschak L561

Calpain-induced downregulation of activated protein kinase C-α affects lung epithelial cell morphology
L. D. Dwyer, A. C. K. Miller, A. L. Parks, S. Jaken, and A. M. Malkinson L569

Active sodium transport and alveolar epithelial Na-K-ATPase increase during subacute hyperoxia in rats
W. Olivera, K. Ridge, L. D. H. Wood, and J. I. Sznajder L577

BOOKSHELF L585

No. 6. JUNE 1994

INVITED REVIEW

Cigarette smoking, emphysema, and damage to α_1-proteinase inhibitor
M. D. Evans and W. A. Pryor L593

Ozone-induced release of cytokines and fibronectin by alveloar macrophages and airway epithelial cells
R. B. Devlin, K. P. McKinnon, T. Noah, S. Becker, and H. S. Koren L612

Roles of Ca^{2+} influx and intracellular Ca^{2+} release in agonist-induced contractions in guinea pig trachea
N. J. Cuthbert, P. J. Gardiner, K. Nash, and C. T. Poll L620

Peroxynitrite inhibition of oxygen consumption and sodium transport in alveolar type II cells
P. Hu, H. Ischiropoulos, J. S. Beckman, and S. Matalon L628

Nitric oxide synthase type I and type III gene expression are developmentally regulated in rat lung
A. J. North, R. A. Star, T. S. Brannon, K. Ujiie, L. B. Wells, C. J. Lowenstein, S. H. Snyder, and P. W. Shaul L635

Characterization of muscarinic receptor subtypes in pig airways: radioligand binding and Northern blotting studies
E.-B. Haddad, J. C. W. Mak, A. Hislop, S. G. Haworth, and P. J. Barnes L642

Inhibition of C5a des Arg-induced neutrophil alveolitis in transgenic mice expressing C-reactive protein
R. M. Heuertz, D. Xia, D. Samols, and R. O. Webster L649

Platelet-derived growth factor and its receptor in lungs from patients with asthma and chronic airflow obstruction
J.-D. Aubert, S. Hayashi, J. Hards, T. R. Bai, P. D. Paré, and J. C. Hogg L655

Induction of pulmonary Mn superoxide dismutase mRNA by interleukin-1
J. E. White and M.-F. Tsan L664

Transforming growth factor-β induces a chondroitin sulfate/dermatan sulfate proteoglycan in alveolar type II cells
W. M. Maniscalco and M. H. Campbell L672

pH_i regulation in alveolar macrophages: relative roles of Na^+-H^+ antiport and H^+-ATPase
A. Bidani, S. E. S. Brown, and T. A. Heming L681

Delayed elevation of ED_1-cellular fibronectin in plasma following postsurgical bacteremia
T. A. Rizk, R. A. Rebres, P. A. Vincent, W. E. Charash, P. J. McKeown-Longo, E. P. Lewis, T. P. Brien, F. L. Minnear, J. B. Fortune, and T. M. Saba L689

α-Adrenergic and muscarinic cholinergic inhibition of ACh release in guinea pig trachea: role of neuronal K^+ channels
D. G. Baker, H. F. Don, and J. K. Brown L698

Retinoids control surfactant phospholipid biosynthesis in fetal rat lung
C. Fraslon and J. R. Bourbon L705

Confocal imaging of time-dependent internalization and localization of NBD-PC in intact rat lungs
M. R. Chinoy, A. B. Fisher, and H. Shuman L713

RAPID COMMUNICATIONS

Immunochemical detection of inducible NO synthase in human lung
W. R. Tracey, C. Xue, V. Klinghofer, J. Barlow, J. S. Pollock, U. Förstermann, and R. A. Johns L722

Cloning, expression, and tissue distribution of a human amiloride-sensitive Na^+ channel
F. J. McDonald, P. M. Snyder, P. B. McCray, Jr., and M. J. Welsh L728
